

Plasthic Email Automation Framework

Stage 1 – Lead Communication & Patient Onboarding

Prepared for: Avi & Daria

Prepared by: Fazal Husain

Purpose: Define automated email communications aligned with the Plasthic customer journey.

1. Executive Summary

The purpose of this document is to define the automated email communication system required for the Plasthic lead management and patient onboarding process. Automated communication ensures that both internal teams and potential patients receive timely updates at critical points in the customer journey.

The email automation framework introduces four primary communication events:

- Internal notification when a new lead is created in Sellrise
- Automatic acknowledgement email sent to the customer
- Contract and payment instructions after consultation
- Patient account creation invitation after contract and payment confirmation

2. Customer Journey Process

1. Customer submits enquiry via chatbot on website
2. Sellrise automatically creates a lead record
3. Internal sales team receives lead notification email
4. Customer receives acknowledgement email
5. Sales team contacts customer and coordinates consultation with doctor
6. Patient agrees to proceed after consultation
7. System sends contract and payment instructions
8. Once signed contract and deposit are confirmed, system sends patient account creation email

3. Automation Trigger Logic

Automation Event	Trigger	Email Action
Internal Lead Notification	Lead created in Sellrise	Send lead details to sales team
Customer Enquiry Acknowledgement	Lead created in Sellrise	Send confirmation email to customer
Contract & Payment Email	Sales marks patient ready to proceed	Send contract link and payment instructions
Account Creation Email	Contract signed + payment received	Send portal account creation email

4. Email Template Specifications

The following templates define the wording, variables, and structure required for implementation. Developers will convert these templates into HTML email layouts integrated with the system.

4.1 Internal Lead Notification

Purpose: Notify the sales team immediately when a new lead is created.

Subject: New Plasthic Lead – {{customer_name}}

Variables Required: customer_name, customer_email, customer_phone, procedure, country, travel_time, budget

Email Body:

A new lead has been created in Sellrise.

Name: {{customer_name}}

Email: {{customer_email}}

Phone: {{customer_phone}}

Procedure: {{procedure}}

Country: {{country}}

Travel timeframe: {{travel_time}}

Budget: {{budget}}

Please contact the customer to proceed.

4.2 Customer Enquiry Acknowledgement

Subject: Thank you for contacting Plasthic

Variables Required: customer_name, procedure

Dear {{customer_name}},

Thank you for contacting Plasthic. We have received your enquiry regarding {{procedure}} and our team is reviewing the information submitted.

A member of our team will contact you shortly to discuss the next steps.

Kind regards
Plasthic Team

4.3 Contract and Payment Email

Subject: Next steps to proceed with your treatment journey

Variables Required: customer_name, contract_link, payment_details

Dear {{customer_name}},

Following your consultation, please complete the next steps below:

1. Review and sign your contract: {{contract_link}}
2. Complete payment using the instructions below:
{{payment_details}}

Once both are received, we will send instructions to create your Plasthic account.

Kind regards
Plasthic Team

4.4 Patient Account Creation Email

Subject: Create your Plasthic account

Variables Required: customer_name, account_creation_link

Dear {{customer_name}},

We have received your signed contract and payment.

You can now create your secure Plasthic account using the link below:

{{account_creation_link}}

Kind regards
Plasthic Team

5. HTML Email Layout (Developer Implementation)

Developers will convert the templates into HTML email format. A standard professional email structure should include branding and footer elements.

```
<html>
<body>
<div style='font-family: Arial;'>
<img src='plasthic_logo.png' alt='Plasthic Logo'>
<p>Dear {{customer_name}},</p>
<p>Email message content here...</p>
<p>Kind regards<br>Plasthic Team</p>
<hr>
<p>support@plasthic.com | www.plasthic.com</p>
</div>
```

</body>

</html>

6. Implementation Steps

9. Confirm SMTP configuration for support@plasthic.com
10. Confirm where automation triggers exist (Sellrise CRM or backend)
11. Create automation rule for lead creation event
12. Connect email templates to automation triggers
13. Define CRM status used to trigger contract email
14. Define logic for contract signed + payment confirmation
15. Trigger account creation email when both conditions are met
16. Test each automation with test leads
17. Validate email delivery and logging
